

# Otsar's Mini Day Camp

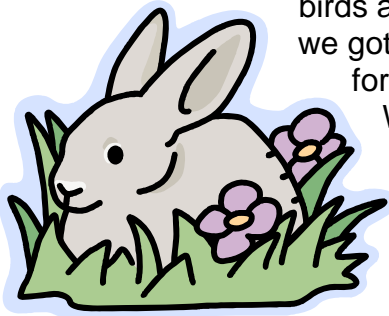

779 East 49<sup>th</sup> Street \* Phone 718-946-7301 x 213 or 201

Wow! We can't believe it's the last day of camp, it sure went by fast! Today we went to Alley Pond Environmental Center! We had a lesson on the diverse ecosystems of the park. The lesson included a hands-on activity where we were able to touch rabbits, turtles and even snakes! What a great experience! We also got to see where the animals eat, sleep, and play.

We went on a nature walk with a special guide who told us all about the birds and beautiful trees. We ended the day by doing a project that we got to take home. Together with our projects, we loaded the bus for the trip back to camp. We had a delicious snack on the bus. We had such a great and educational day today!

We can't wait to come back next year again!
