WELCOME TO MINI DAY CAMP 2009!

It's our first day of camp and we had such a great time with a super trip to the Queens Farm! We had such a good experience feeding the goats and other animals, as well as going on a fun hayride.

The fun didn't end on our farmyard tour, as we got to see all the various animals in their natural habitats, and how and what they eat as well hearing all the different sounds they make. It was also nice to be around such beautiful scenery.

We can't wait for tomorrow, where the fun will continue in Mini Day Camp!
