Labor Day Extravaganza..

Monday morning dawned bright and early. There was an Otsar spirit in the air! The participants sensed something exciting but couldn't quite figure out what it was. We announced that we will be hosting a BBQ style lunch in honor of Labor Day! The participants clapped and cheered. Who doesn't love a scrumptious BBQ?! **Francine, Mordy, Chayala** and **Eddie J** had the opportunity to partake in decorating the backyard. We blew up red, white and blue balloons as well as streamers. The participants happily marched to the backyard. The tables were tastefully set with blue tablecloths and red plates, matching our patriotic atmosphere. Our mouths were watering as we were served succulent hamburgers. Delicious! We also had toppings of coleslaw, pickles and onions. To top it all off, we had juicy watermelon for dessert. Red, of course, to match our theme.

We then continued with different activities in the sunny outdoors. **Gita** laughed

as she threw the basketball in the hoop. **Danny** impressed us with his perfect aim. The winners got spectacular prizes such as jewelry and soccer balls. What an awesome way to start our week! Thank you Otsar for our marvelous, show-stopping program!!

Photo Cubes..

On Tuesday, we worked on creating our very own, sophisticated photo boxes. We will put in different pictures of our "good times" at Otsar.

Choosing photos will definitely be a challenge as there are too many memorable events to fit in a cube! The participants started out with decorating a paper with the words "good times" in bold.

David showed us his artistic talent and colored in pretty swirls.

Peryl used a yellow marker, creating a striking effect. We then

designed silver boxes, where the pictures will be placed. **Bracha**

impressed us and drew a lovely flower. Thank you Faye for our

awesome weekly crafts! We can't wait to take home these unfor-

gettable photo cubes and will surely enjoy looking at them!

Flower Bulletin Board..

A magnificent bulletin board went up this week in Day Hab. The background was a distinctive red. Our flower crafts that we made several weeks ago were put up. We also pasted the striking signs with our names on the doors, in a zig-zag formation. We're appreciative of all the breathtaking bulletin boards that grace our walls in Day Hab!

Sensory with Sal..

This week, we made our very own sensory boards. We used several different items such as beads, pearls, bows and wooden blocks. Using Velcro, we pasted the items onto a wooden board; on the designated Velcro slots. The participants utilized their dexterity and sensory skills. We look forward to our weekly sensory activity and are waiting with bated breath for next week! What's it gonna be?!
