Mask Decorating..

This week, Day Hab was a hubbly of festive activity. Upbeat Purim music echoed off the walls. On Tuesday, we did an exciting project with Faigy.

Each participant got a bag with supplies. We decorated two different kinds of masks. Thankfully, they weren't Covid masks, rather decorative masks for Purim! We started out with coloring the background of the mask. The participants then pasted on stones and interesting shapes. **Gita** showed us her creative side and did a spectacular job.

We added in a feather in the middle of the mask. The participants then stapled on a straw to hold it up. **Yvette** decorated the mask beautifully.

We were awed by the sophisticated masks we made! The participants had a blast putting the mask to their eyes. Just wait and see, there's more fun coming up! The second type of mask we made was for the nose and mouth. The participants pasted a colored cotton ball on the nose. We then decorated the bowtie underneath the mouth. **Eshka** colored in the polka dots in an original way. We're grateful to Otsar for always entertaining us with exciting projects and activities!!

Trip to Industry City..

We planned an exciting trip this week, the Industry City shopping center! On Wednesday, the participants trooped on the buses and were on their way. We enjoyed walking around the spacious complex and viewing the artsy centerpieces. The participants were enthralled to ride on the transparent elevator! We visited Face Value, a mega superstore. **Chayala** bought a beautiful headband with blue stones. **Eddie J** purchased a ball. **Francine** bought slippers with an exquisite design. The participants came back full of zest. We're happy to be going out in the community each week and look forward to our weekly trips!!

Spotlight on Yvette..

On Wednesday, we were honored to feature **Yvette**. We learnt all about her likes and interests. Yvette's favorite activity at Otsar is the kitchen group where she enjoys working together with her friends. We learnt that her favorite color is pink. Yvette's favorite food served at Otsar is homemade pizza and chocolate chip cookies. Yum! Her beloved friends include **Chayala** and **Roger**. During her spare time, Yvette enjoys traveling on road trips with her niece

and watching movies. Yvette brought photo albums and shared with us pictures of when she was young. We clapped and cheered for her, privileged to have Yvette as one of our valued participants. We are looking forward to next weeks' feature!! Who's it gonna be, just wait and see?!

Rosh Chodesh Festivities..

This week, the participants did lots of special activities in honor of Rosh Chodesh Adar Beis, which was on Thursday. Out came hats and musical instruments, in many different styles and sounds. We turned on "beat"y Purim music and started to dance. **Shoshana** danced with a hand clapper. **Richie** hummed along to the music. **Marc** proudly put on a blue starry hat, and shook a rattle drum. We danced away with wide smiles on our faces and truly felt the Purim spirit. A special thank you to our staff for always making our days so lively! Stay tuned for upcoming events that will surely knock you off your feet!!
