Today was a great day at OTSAR!

March 22, 2026

We were so excited to make our very own matzah.

We rolled out the dough and made little holes in it so it doesn't rise.

What fun it was to feel like we were in a matzah bakery :)

We continued the day with Jay teaching us about Pesach. The stories are very interesting and entertaining.

We had Du Dance join us today and it was amazing!

Sol entertained us with his sensory projects.

We can't wait to show you all of our projects we made for Pesach!

(We made the projects in a separate room to stay clean for Pesach.)

Have a beautiful Pesach!
