May 3, 2026

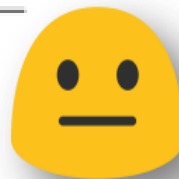

Today was a great day at Otsar!

We were so excited to hop on the busses for a trip to Dave and Buster's. We loved trying out different games, pretending to drive cars, so much to do there! Time flies when you are having fun and soon enough we headed back to Otsar. We had a delicious lunch and then continued working on our Shavous projects. Our plaster planters had been removed from the molds and were ready and waiting for us. We all chose a color theme and painted the planters ombre style. Next time we meet up, we will do some planting and then bring home our beautiful creation.

Hope to see you all at our next program, on the 17th of May!
