

# ***Otsar Day Hab Newsletter***

***January 24, 2025***

## ***Trip to Puppetworks..***

*You guessed it right! On Wednesday, the participants were thrilled to go to Puppetworks. We jumped out of our seats in excitement when we heard the big news. We saw an all-time favorite play on "Alice in Wonderland". Our group goes once a year to Puppetworks and this show, like all the other shows, was breathtaking! The young men who maneuver the marionettes do a terrific job in making the puppets very life-like. The play was about a girl named Alice. She was playing cards with her cat when they both fell asleep. Alice dreamed of a rabbit going to a birthday party. All the figures in the cards came alive. When she awoke, Alice was right at home, in her own Wonderland. **Danny** was captivated by the show. **Francine** loved the queen of hearts character. The participants sat still in their seats and were spellbound throughout the play. Shout out to our incredible staff for making our days "come alive"!!*

### ***Serene Snowflakes..***

*The snow days have officially begun! Each morning, the participants get off the buses bundled in warm coats and hats. We keep the warmth going throughout the day with cozy activities and budding friendships. This week in our arts n' crafts session, the participants created majestic snowflakes. Each person received a large white oak tag with tape in the formation of a snowflake. Using sponge brushes, we painted the surrounding area with blue and white paint. The participants added in a touch of glitter. **Peryl** had a serene look on her face as she painted. **Mordy** could almost touch the crystal snowflake. We removed the tape and out came a magnificent picture. The participants were immersed in a winter paradise and had a "wonder"ful time. We can hardly wait to see these masterpieces grace our Day Hab walls!*

### ***Inauguration of the President..***

*As the participants are loyal citizens, we watched the presidential inauguration live at Otsar! The participants took their seats as the inauguration began. **Yanky** cheered as Donald Trump was sworn into office. He then proceeded to his speech in which he promised to make America great again by signing new laws into effect. We are hopeful for a promising four years ahead!*

## **Mailing...**

The Otsar name continues to be fame,

When it comes to doing a mailing,

Our satisfaction we do gain!!

*Our jaws dropped in excitement when we found out we would be doing a mailing! Mr. Lemel's assistant came to Day Hab to drop off a mailing for an upcoming wedding. He has a great relationship with Otsar and knows the professional work we do. Therefore, he entrusted us with this important job. No job is too big for us to handle, so we jumped right in and took our work seriously...of course with lots of conversation and relaxing background music. **Roger and Sara** were some who sorted, combined, stuffed, glued and stamped the invitations. Our devoted staff assisted with the mailing, always rising to the task, no matter how big or small! Mr. Lemel was quite impressed with our organizational skills. Kudos to the participants for their hard work. Your diligence and strong work ethic surely paid off!*
